Eastern University

A Leader in Quality Education

The Advisor's Note

The EU Newsletter basically is a semestral broadsheet on the major issues and events that take place during the Semester. It usually heralds the advent of a new Semester and is presented on the Orientation Day of the Semester. The newly admitted students along with their guardians get a glimpse of what their Alma Mater stands for and how it functions. As an institution of learning and higher education, EU is naturally concerned with the academic grooming of the students so that they become academically well-equipped, knowledgeable and skilful, but the University puts equal emphasis on extracurricular activities as well. EU believes that its students must be competent, smart and confident not only in academic matters and subjects but also in all other aspects of their personality. With this in view, the University has formed various clubs and forums and through them the extracurricular events and activities are regularly organized and held. The Newsletter is an account of the academic and extracurricular activities and programs of the students, teachers and officials in order to enthuse all, particularly the students so that they do the same and even better when their turn comes to keep their Alma Mater ever vibrant and dynamic.

Keep up the good work and the flags flying, you from among the faculty and the staff who have worked hard and sincerely to bring The Newsletter out. Congratulations!
