Guidelines for Contributors

The Eastern University Journal is a refereed journal published twice a year, in January and in July. The Journal is meant to promote research and scholarly pursuits among the faculty of Eastern University and among those of other Universities of the Country. Articles in the fields of Humanities, Business Administration, Social Sciences, Law, Engineering and Information Technology are preferred. The articles must be in English and should not normally exceed 10,000 words.

Book reviews are also considered for publication and they should be within 1500 words, although in exceptional case(s) the word limit may vary in regard to both articles and reviews. A book review must accompany two copies of the reviewed book. An Article should be research-based and demonstrate the author's own analysis and judgment. It should be original and not published before. Every article should begin with an abstract of about 250 words.

All articles submitted for publication in the journal should be printed, double-spaced on one side of A4 papers with ample margin (an inch and a quarter) on the right-hand side. They should be sent in duplicate together with a floppy in MS Word. Manuscripts not accepted for publication are not returned unless they are accompanied by stamped self-addressed envelopes. The author of a published article will get two copies of the Journal and 5 off-prints of the article. Book reviewers will get one copy of the journal.

All footnotes should be numbered and should be given at the bottom of the corresponding page.

Bibliographical references should follow the following format. In case of reference(s) from journal article(s), the name of the author(s), with the last name first and then the first name and the middle initial, and then year of publication, the title of the paper within inverted commas, the name of the journal in italics with the volume number, month and year, and finally, the page number(s).
